

Topics to Consider

There is no single format to the Daily Scrum, but these are common considerations.

What opportunities for cross-functional work could minimize hand-offs?

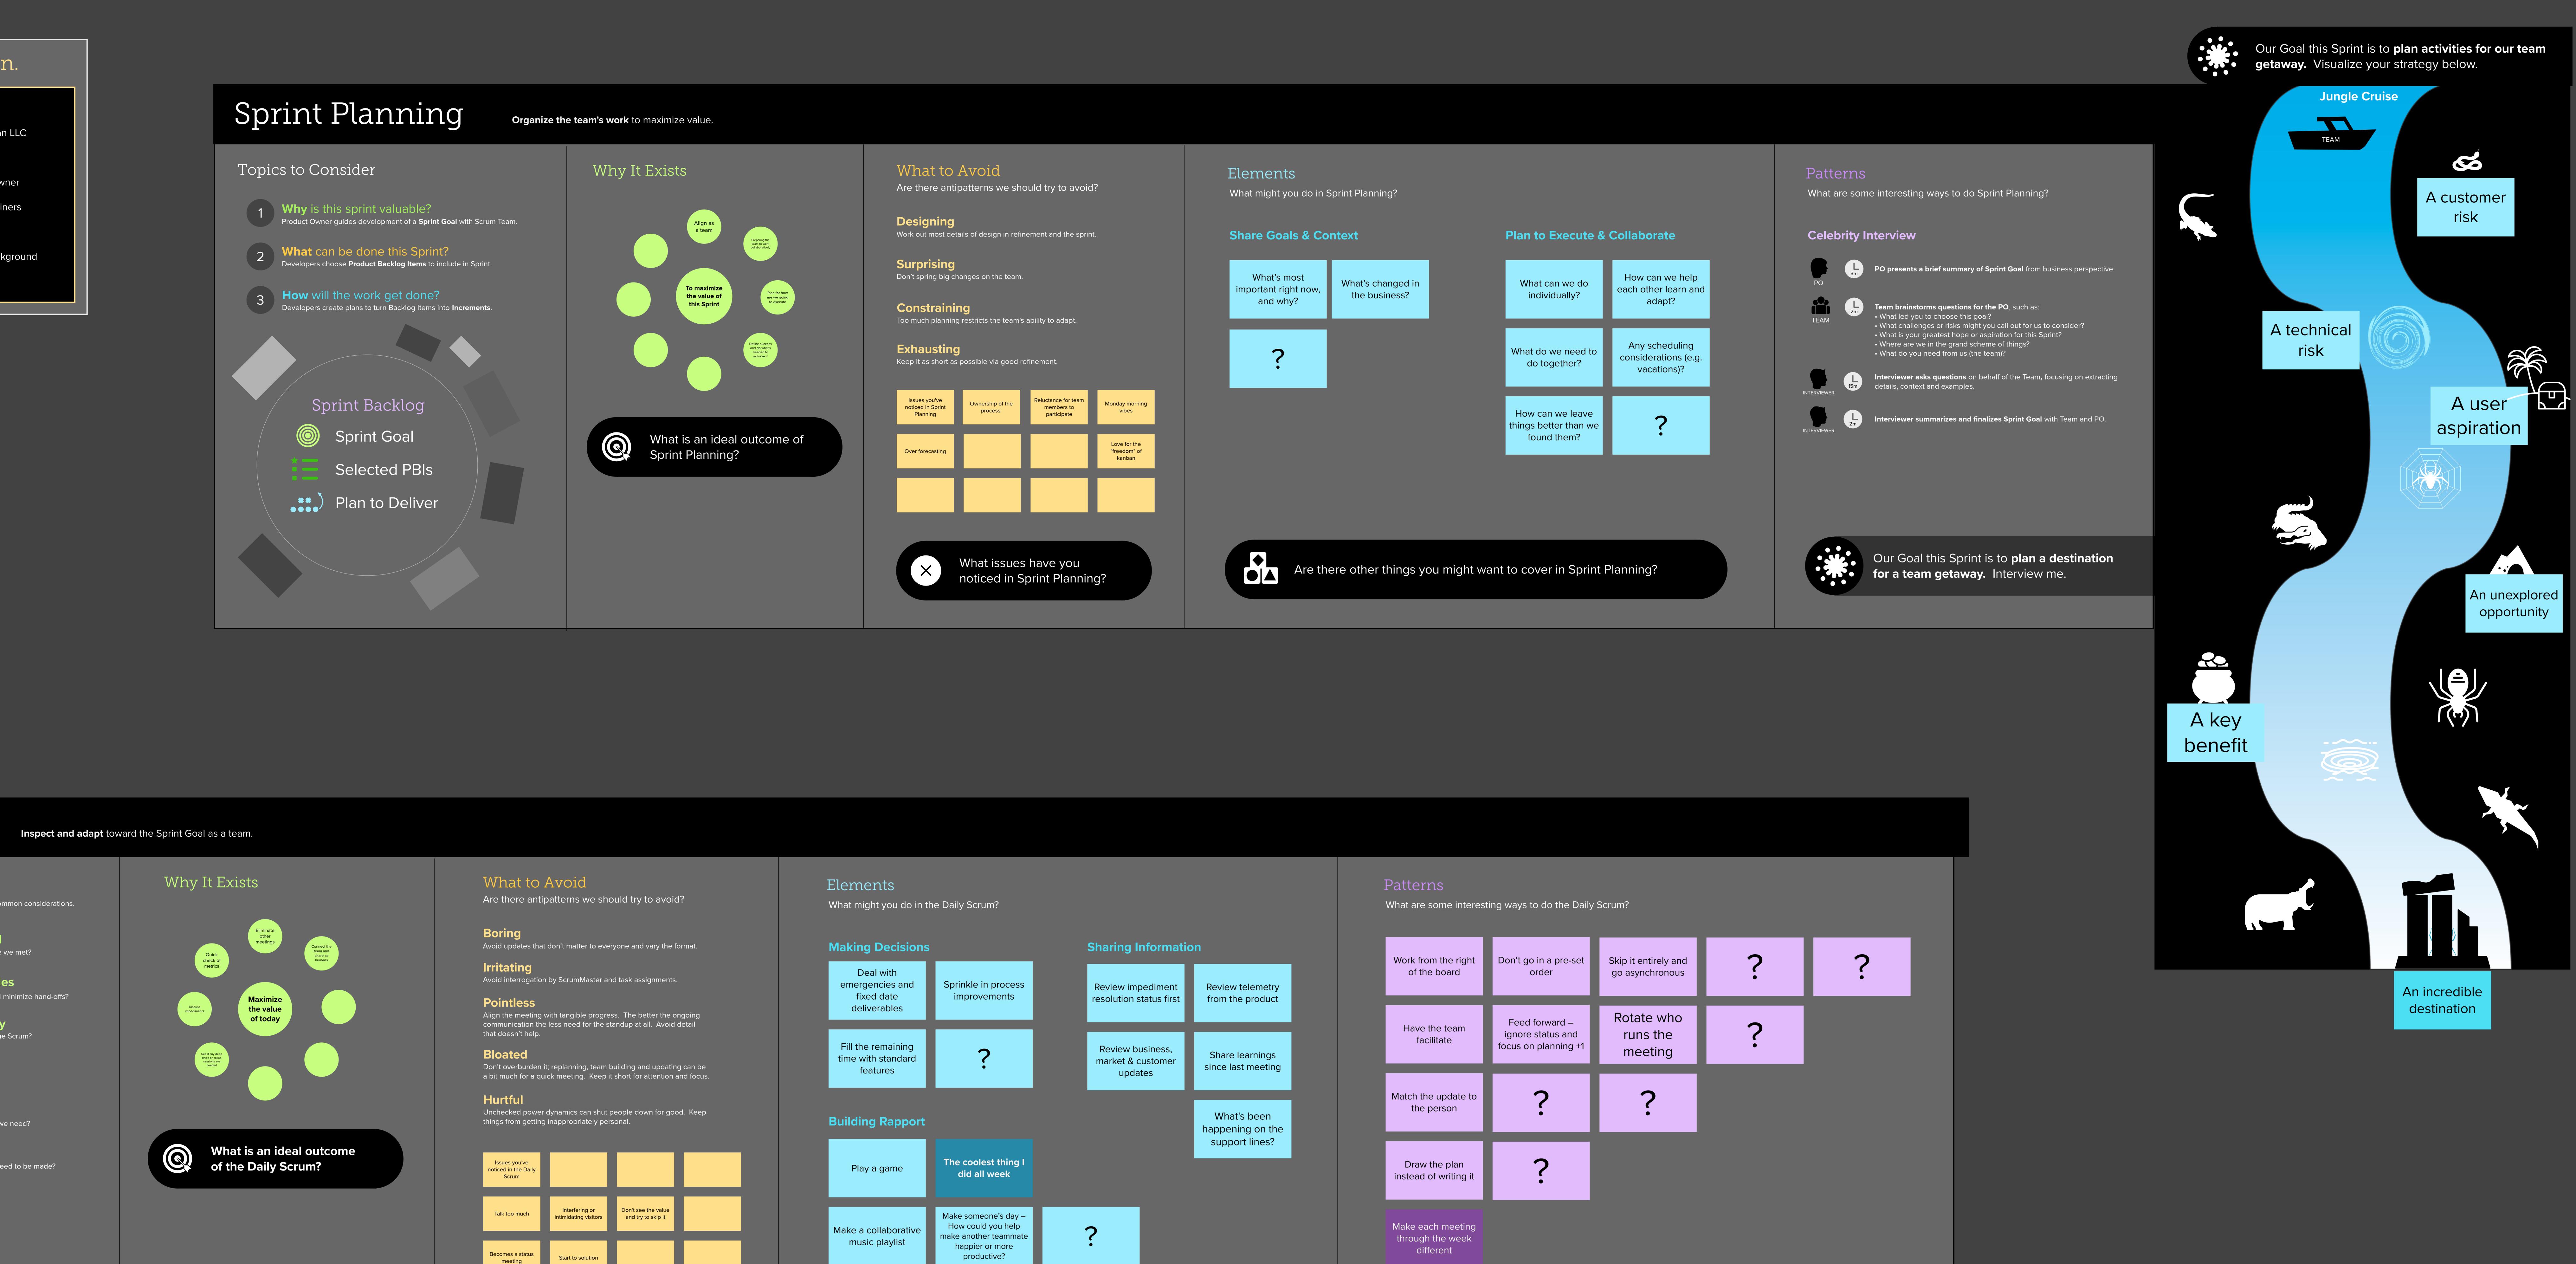

? What has been accomplished
What has the team gotten Done since the last time we met?

**How to collaborate across roles** 

? Topics to discuss more deeply
Who needs to meet for quick huddles right after the Scrum?

? Impediments to progress
What's holding us back, and what information do we need?

? Progress toward Sprint Goal
Are we on track or not, and do any adjustments need to be made?

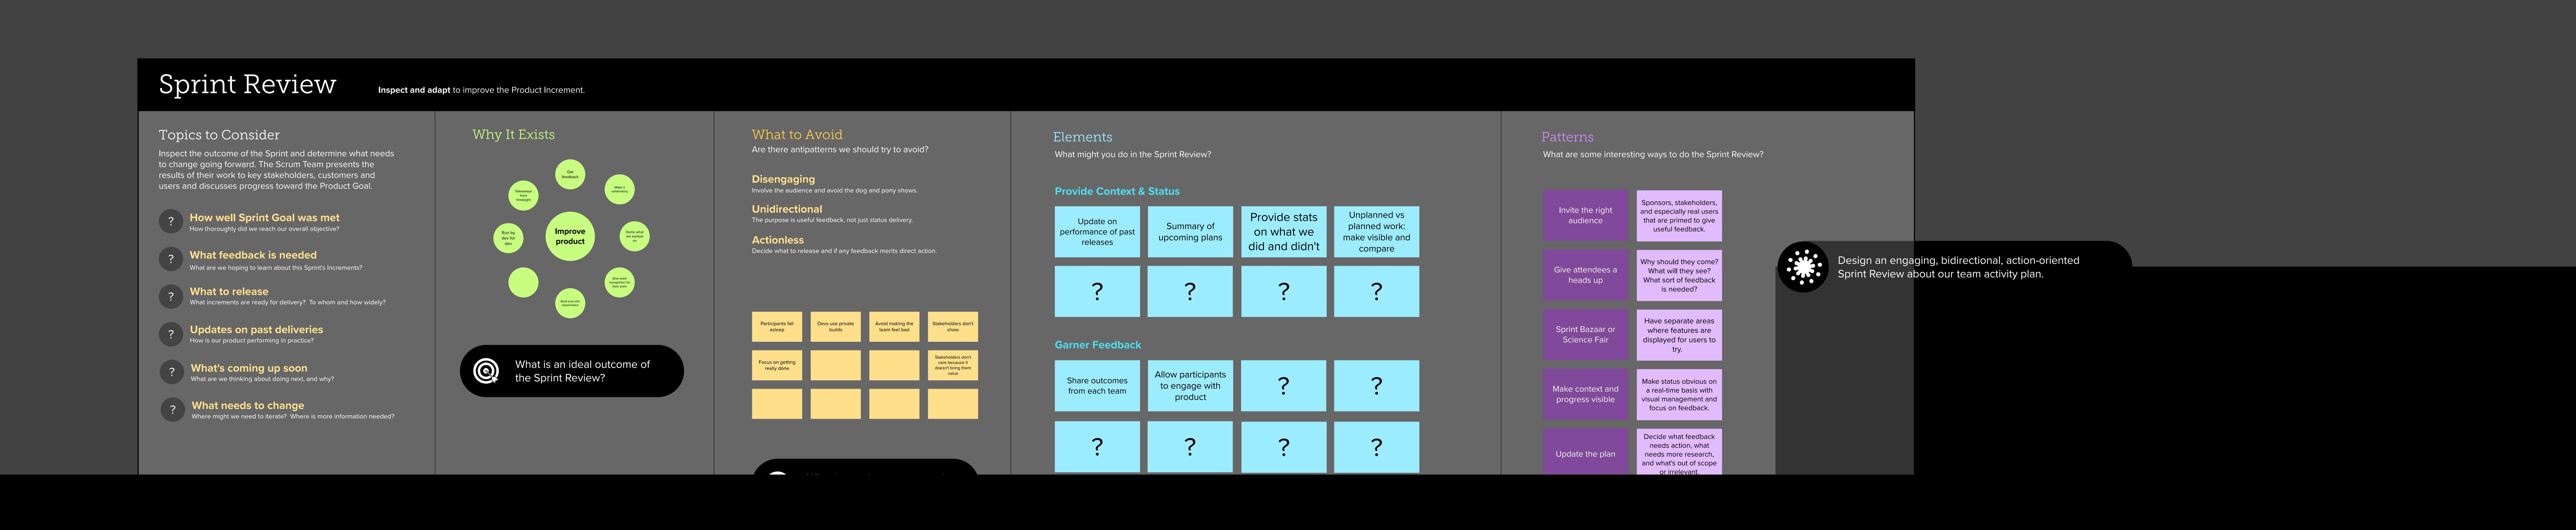

Make each meeting

through the week different
